Core Competencies:

Lite House Telecommunications (LHTC) specializes in structured cabling and fiber optics installation.

We support telecommunications behind walls, pre-construction rough-in to post-construction with final trim out.

- **Structured Cabling:** Designing, installing, and maintaining reliable structured cabling systems for seamless data and voice communications.
 - Demarc Extensions
 - Innerduct and Riser installations
- **Fiber Optics:** Specializing in the installation and optimization of fiber optic networks, providing high-speed and secure data transmission capabilities.
 - IP OSP Services
 - Fusion Splicing for all terminations
 - Single-Mode and Multi-Mode Fiber Cable installation
 - Fiber Optical Cable Splicing
 - Fiber Optic Cable backbones
 - OSP (outside plant) & ISP (inside plant) installation
 - Fiber Optic Testing & Certification

Past Performance:

Colonna's Shipyard Inc.

- Value: \$45,000
- Timeframe: 2022-Present
- Provide the services of a qualified fiber optic technician to groom ship's fiber network. Conduct walkthrough with the COR/Port Engineer and ship's Chief ET to determine scope of groom. Provide reports in CFR format to detail work completed, findings, and additional recommendations, if any.
 - Contact: Inga Johansson, Superintendent III
 - Email: ijohansson@colonnaship.com
 - Phone: 757-798-0812

The GBS Group

- Contract Value: \$80,000
- Timeframe: 2019-Present
- Provide fiber installation, termination, and testing for naval ships throughout the United States. Provide daily reports and completion/service reports and deliverables to customer.
 - Contact: Mike Karr
 - Email: michaelkarr@thegbgroup.us
 - Phone: 757-407-1960

Huntington Ingalls Industries- Newport News Shipbuilding (NNSB)

- Value: \$1,000,000
- Timeframe: 2017- Present
- Provide IT land services including consulting, structured cabling, testing and troubleshooting, and fiber optic services.
 - Contact: James C. Johnson, Data Center Manager
 - Email: james2.johnson@hii-nns.com
 - Phone: 757-688-3790
